

## Have you ever made a promise that you did not fulfill?

- ED ANTOINE, President & Founder, DB4N

Well, I did. Actually, I did it a lot in my 20s, and then, with each decade passing, I diminished the number of promises, and increased the % of “accomplished” ones. (I still don’t know how to ride a motorbike..)

At Digital Bridges 4 Nepal, one of our values is **ACCOUNTABILITY**. We often describe it as **CO-RESPONSIBILITY**. We are & feel co-responsible to fulfill our Mission to Strengthen Communities through Education 4 Nepal, to reach our fundraising goals engaging the Nepali Communities abroad (see article with Nepali Lions Club in Baltimore), and by delivering our Computer Learning Environment Centers in remote areas, on time, on budget (see article about our CLEC in Mustang). **BLOCK the DATES for 14 extraordinary days to Nepal’s GOKYO LAKE Nov 7 - 21, 2022.**

*What about You?*

*Are you making good on your promises despite challenges?*

## BALTIMORE LIONS CLUB IS ON A ROLL!

- by Ojashwi Sharma

On Sunday May 15, the Nepali Lions’ club of Baltimore with our DB4N board member Dr. Baikuntha Chaulagai, Dr. Bishal Bhandari, and President Mahendra Thapa Magar invited DB4N to make a presentation of our CLECS and explore if they would fundraise one.

The Lions Club of Baltimore Nepalese is a community organization who work together to contribute to the Nepalese community. Most Nepalese who had the opportunity to gain experience abroad wish to give back to their homeland.

DB4N’s mission is to Strengthen Communities through Education. After a presentation done by Ed and Bhiaknutha, there were dozens of questions and interest to do one, or maybe two or three CLECs, in Dhading and Myagdi. Now we need to finalize the choice of the first school in the Ghorka district.

And then the Lions Club will organize a fund-raiser on July 17. Mark your calendar! And join our team in Baltimore!

### MUSTANG WELCOMED FIRST EVER CLEC!!

- by Nitesh Prasai

With the years of learning and improvement, we are pleased to pronounce that CLEC in Shree Janahit Secondary School in

Gharapjhong, Jomsom, Mustang is by far one of the most beautiful and well-managed/ organized CLEC rooms and a great example for developing better CLECs in future.

In the presence of the Mayor, deputy mayor, ward chairman from the different wards, and local leaders and representatives, the virtual presence of our president (Mr.Edmond Antoine) and chairman (Mr.Jhabindra K. Subedi), we successfully inaugurated CLEC dated on 30/05/2022. All the presented people were very happy and anxious about the structure of the CLEC room and thankful to all the donors and stakeholders.

We would like to express our deep gratitude to all the respected donors, stakeholders, and supporters for their dedication, donation, and support to developing rural areas of Nepal through Digital Bridges 4 Nepal.
